

Vehicle Landmark Annotation

10 visible landmarks across four label categories | Manual keypoint placement in Label Studio

LANDMARK SCHEMA

- Wheel Centre
2 points
- Headlight Centre
2 points
- Windscreen Corner
4 points
- Mirror Centre
2 points

SKILLS SHOWN

Vehicle landmark localisation
Consistent label assignment
Visible-feature selection
Annotation review and correction

APPLICATION CONTEXT

Vehicle geometry, landmark localisation and computer vision dataset preparation.

Demonstration on an AI-generated vehicle image. Screenshot annotations are reproduced as supplied.
No measured accuracy, model performance or completed client engagement is claimed.

Human Pose Annotation

13 landmarks with subject-based left/right labels | Manual keypoint placement in Label Studio

LANDMARK SCHEMA

- Nose**
1 point
- Shoulders + elbows**
4 points
- Wrists + hips**
4 points
- Knees + ankles**
4 points

SKILLS SHOWN

- Anatomical landmark localisation
- Subject-based left/right labelling
- Consistent keypoint categories
- Visual review and refinement

APPLICATION CONTEXT

Human pose datasets, movement-analysis workflows and computer vision training support.

Single-image practice demonstration. Joint positions are visually estimated through clothing.
A project-specific schema and acceptance criteria would be agreed before a production pilot.
